# In-Desk Power

Assembly Guide
Branch

Components

 Power Unit (x1)

 Screws (x4)

Specifications

Outlets: 5 (120v/60hz)
USB Ports: 2 (one 5V 2.4A USB-A port and
one PD 45W USB-C port)

⚠ Caution

• Do not connect the power strip to an ungrounded outlet.

• Do not use the power strip with 2-wire extension cords or adapters.

• This power strip is designed for indoor use only. Install the power strip away from heat-emitting appliances such as radiators or heat registers.

• Do not install where excessive moisture is present.

• Do not plug extension cords into the power strip.

• Do not drill into any part of the housing or open the housing for any reason. There are no user-serviceable parts inside.

To install the in-desk power unit: screw in the Power Unit using Screws (x4) under your Branch desktop following the four pre-drilled holes surrounding the cut out. Plug in the power cord to the wall—you're now all set!
